Aspiring engineering student ready to shine in web development internships. Skilled in HTML/CSS/JS, I excel in careful testing and fixing issues. I'm all about delivering results on time with precision. Eager to make a big impact in the exciting world of web development.

Education:

Bachelor's in Engineering (B.E.), Electronics and Communication Engineering, (CGPA: 7.05)

Institute: Government Engineering College, Gandhinagar

Skills and Expertise:

Technical Skills: HTML, CSS, JavaScript, React-Js, Redux, Redux-Toolkit

Organizational Skills: Public Speaking, Effective communication, Problem Solving

Internships:

Summer Internship, ICodify Solution, Ahmedabad

July 2023 - August 2023

- Worked with PHP and Laravel based technologies.
- Created Basic Video calling App using PHP Laravel framework.

Software Development Intern, CodeColonies, Ahmedabad

Jan 2024 - April 2024

- Working On React-Js & Redux-Toolkit in ERP HealthCare Project Under the Senior developers.
- Developed and enhanced various features within Project, including the Editbar, Register and Login Page for New Users.
- contributed to ongoing bug-fixing efforts to ensure product reliability and user satisfaction.

Projects :

• E-Commerce Website :

Created E-Commerce Website using Redux-Toolkit & Firebase, This Website has components such as Navbar, Cart, Product, Sidebar, etc. Navbar includes Sidebar, Search-Products, Home & Cart components. Sidebar includes pages like Signup, Signin, Signout, Products-category & Cart. Cart component contains products information which are added from Home page. In cart user can add, update & remove products from list, cart components also show the all products price with its quantity. Firebase is used for Registration & Authentication process in this project, all Registered user data is stored in firestore.

• Todo List Website :

<https://github.com/nik787889/redux-toolkit>

Created Todo List WebApplication using React Js, which performs basic CRUD operation Like, Add, Update & Delete Task.
